LIGHTING

COMPACT & VERSATILE

Narrow and compact, this equipment is ideal for work in city centres, villages or mountain areas. Thanks to its 4x4 traction system, it easily handles narrow streets, trails, and uneven terrain.

SAFE & EFFICIENT

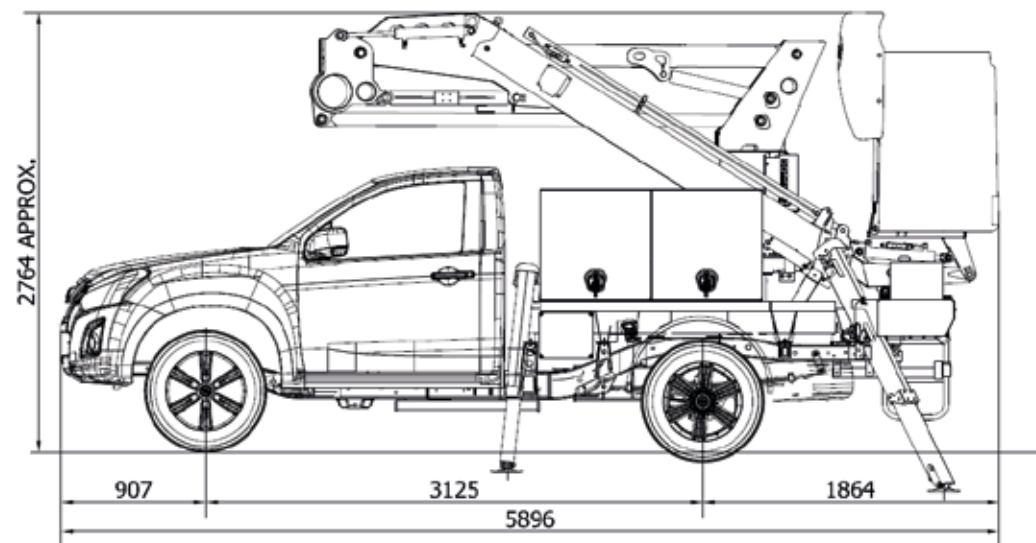

Articulated boom for maximum outreach over obstacles. A+A stabilisers ensure perfect ground adaptation, while dual 1000V insulation guarantees operator safety.

EASY MAINTENANCE & STORAGE

External cylinders, quick-access floor, and large organised cabinets for tools and accessories – all at a low cost.

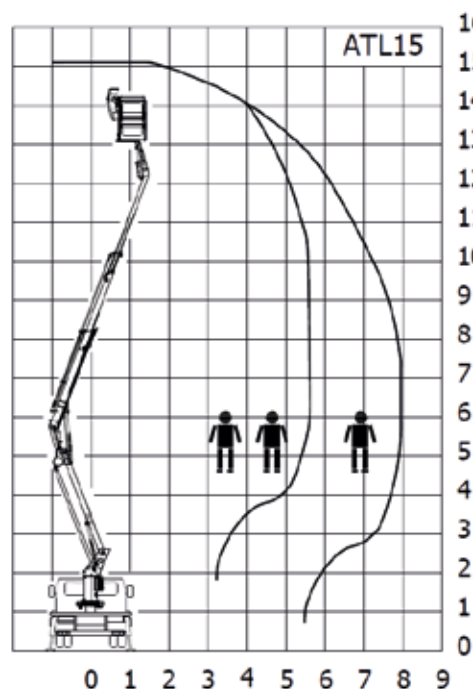

TECHNICAL SPECIFICATIONS

Maximum working height	15,10 m
Maximum outreach	
225 kg	5,5 m
80 kg	8,0 m
Basket load	225 kg / 2 people
Turret rotation	450°
